SIERRA MADRE, CALIFORNIA, THURSDAY, JULY 1, 1954

VOL. 48, NO. 34

## This World

VIRGINIA JENKINSON

The NEWS would like to help find work for two boys now in our employ. We are attempting to keep both boys here on a part-time basis, because they are ambitious lads. However, we do not have enough work to keep them fully employed for the summer and would like to share them with someone who also needs part-time help. One is Ray Cheroske, a bright fellow who can do almost anything he tries his hand at, and the other is Bob Brogger who does sports for us. The latter is not mechanically inclined, but is earnest and very dependable. Ray is anxious to earn money this summer to further his education. He says he expects to enter the ministry as a life worker. If you have anything for these boys call us at CUSter 5-3324.

What ever happened to the lemonade stands that youngsters of our generation put up in their yards during vacation time! The lemonade sold for a penny a glass and every person passing by was inveigled into making a purchase. Since our home was located across the street from a college campus, on a street considered to be sedate, this bit of youthful fun was tolerated by mother only on the condition that we keep the stand clean and attractive. Imagine her surprise one day when she returned from a card party to find the stand draped with one of her best 3-yard tableclothes and lemonade being served in some of her cherished crystal. Seems as if this was the last of the lemonade stands in our family.

## Around the Square

By VERNA H. LUMBARD

Anybody have a spare flagpole lying around? Highly improbable, of course. Just our graceless way of introducing the information that the Sierra Mesa school, now a building at Canon and Highland, doesn't have one. Neither bond issue nor budget embraces the cost—ABOUT \$400 overall for a good one stoutly implanted in concrete.

Nice project for some patriotic and/or civic organization?

Dottie Underwood, who si-phones bits of this and that into the colum now and then, left a note in our typing machine, to-wit:

"It just ain't SAFE to shop in Sierra Madre these days—that's since they started this BIG CLERK CONTEST. All the clerks are so dang sweet I can't resist 'em—find myself BUYING whether I intended to or not. THIS is expensive . . . !"

Well, kiddo, you can't take it with you. Besides, ain't it FUN not having that brain strain, trying to decide whether to buy it now . . . or manna?

Belated birthday greetings to Percy Bonebrake—celebrated his 76th and the girls at the grill put a candle on his slice of cake. And equally belated congrats to Rudolph Hartman on his 45th year in the pharmacy business here—and to Sam and Ruth Simpson on their cleaning establishment's third. —And to Virginia Sayles on her shops' second which was celebrated with an informal fashion show, California designers present and flowers everywhere.

Fritz Adam says that with all this modernization going on and Sierra Madre getting so citified he got a boot out of noticing some old hitching rings left in the curbing in front of the Public Library.

"Anyone know," he asks, "whether they will HAVE TO GO when the new library is built?"

## CITY CONFERS ON LANNAN DAM WATER

U. S., County Groups, Two Cities Involved

The City of Sierra Madre has declared its willingness to participate financially and conferences continue this week with County and Federal agencies involved and the City of Arcadia concerning provision for piping outflow from the Lannan Canyon dam to Big Santa Anita Wash.

Mayor cost has been estimated at approximately \$95,000 by Arcadia City Engineer Ray Rogers. It is expected that the U. S. Forest Service will provide \$25,000 and the Camden-Wilshire Co., subdivider of some of Elkins acreage in Arcadia, another \$25,000. In the absence of County Supervisor Herbert C. Legg at a meeting held in his office Tuesday, no commitment has been forthcoming of a County Road Department and County Flood Control District provision of an estimated \$30,000 toward the project.

### Cities Participate

A balance of \$15,000 would be shared by the Cities of Sierra Madre and Arcadia although no decision has been reached on apportionment.

The \$95,000, according to Rogers' letter to the City of Sierra Madre, would cover piping of outflow across Sierra Madre property east of Santa Anita Ave. to the Big Santa Anita Wash. It would not include cost of transporting water from the dam spillway across Santa Anita Ave. or from the main pipeline into the Wash. Approximately \$5000 of the additional cost has been verbally committed by the County Road Department and an additional \$6000 is sought from the Flood Control District, according to Councilman Harold F. Roberts who attended the meeting this week.

### Yucca Also Problem

Roberts also has mentioned that before next winter's rains Sierra Madre will have to come up with a Yucca Trail run-off solution among others, in addition to the Lannan Canyon outflow provisions.

According to Roberts, the City could enter into an agreement with the Forest Service on the Yucca Trail problem, the Forest Service to provide plans, engineering advice and Sierra Madre providing the labor.

## Lost and Found Dept. At City School Wants To Vacation, Too!

School is closed but the Lost and Found Department isn't!

Ownerless lunch pails, coats, sweaters and miscellaneous other items will continue to be on display in the office of the City school through July 9, according to Supt. of Schools Charles A. Skutt.

Some of the items were left at the last teenage dance, he says, and are still waiting to be claimed.

## RECOMMENDATIONS FOR REPAIRS AND IMPROVEMENTS TO SIERRA MADRE WATER SYSTEM

BY CITIZENS' GROUP FOR WATER

A. L. Draeger, Chairman

### PART II

Part I of this report appeared in last week's issue of THE NEWS. It included a description of the present water situation as the writers view it and a tabulation of the component parts of the water system.

Recommendations by the Citizens Group for Water was precipitated by defeat in April of a \$110,000 water system improvement bond issue.

The report develops the citizens' contention that the most needed repairs and improvements can be achieved without either issuance of bonds or rate increases.

Councilman Harold F. Roberts, Water Department chairman, stated recently that he has studied the report and is prepared to discuss it at a future council meeting.

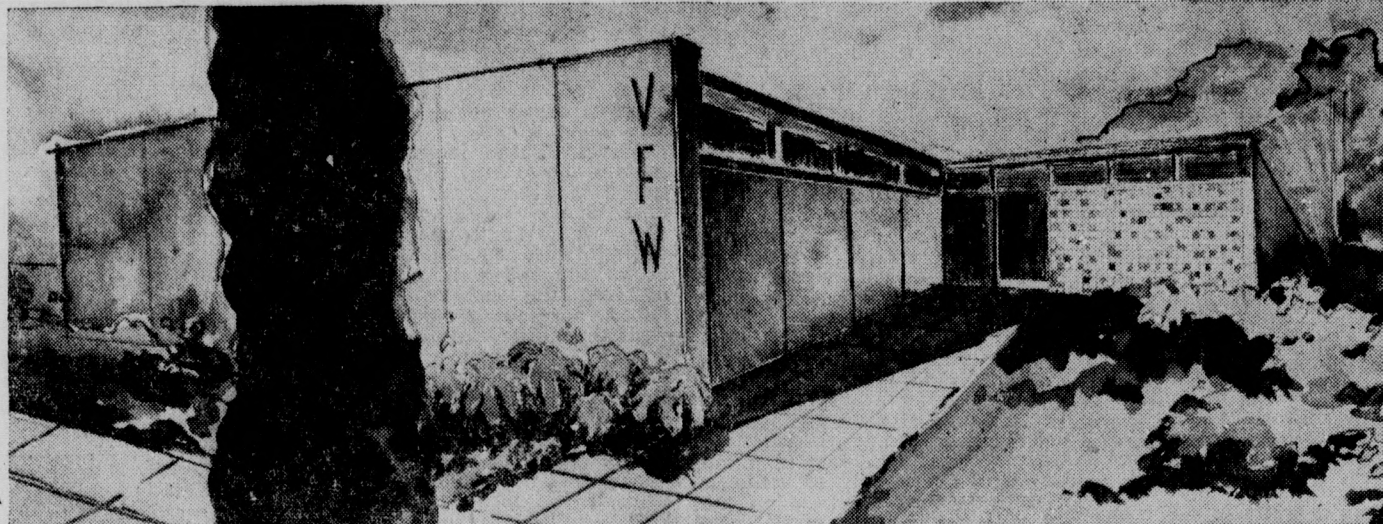

The Citizens Group for Water has been praised by the council for the work, study and public spirit represented by the report. The concluding portion of the report follows:

Water storage requirements are based on an average daily use of 220 gallons per person with a peak use of 2½ times this amount. With the peak requirement for water at 550 gallons per day per capita, and with the present 8300 population our storage requirement is 4,665,000 gallons. Our storage in the three reservoirs totals 4,700,000 and will be sufficient until our population reaches 8545 persons which is predicted for 1956. However, the storage in the upper area is not sufficient to meet the peak use re-

quirement of 550 gallons per day per capita.

To overcome this apparent deficiency, the final objective is to provide additional storage capacity by constructing a new reservoir at an elevation sufficiently above the upper area to permit gravity flow in its distribution mains. However, such a reservoir is too expensive for us to pay for at this time out of water department funds available without seriously interfering with other more necessary projects.

Turn to page two

EXTERIOR VIEW OF THE PROPOSED new clubhouse for Harry L. Embree Post and Auxiliary, Veterans of Foreign Wars, is shown in this preliminary sketch by Architect Mac A. Cason of Sierra Madre. Of contemporary design and post and beam construction, the clubhouse will be erected within the near future on the VFW's property across from its present outgrown headquarters, the Old Adobe at 37 E. Montecito. The new building will include a card room, clubroom, kitchen and auditorium and will be made available for use by other organizations, according to Post Commander William D. ("Bud") Marsh who is advancing the building program.

## Holiday Stay-at-Homes Look to Quiet Fourth

MOST BUSINESS PLACES TO CLOSE ON MONDAY; CANYON POOL OPEN THEN

With another long holiday weekend in the offing many Sierra Madreans are rushing preparations now to take off for beaches, mountains and vacation destinations.

Less venturesome neighbors who take a dim view of holiday traffic will loiter around at home, putter in gardens, twiddle TV knobs, take a dip in their own, someone else's or the Canyon pool, play a spot of golf and do some plain and fancy barbecuing.

The weekend won't be entirely uneventful here.

Sunday churchgoers will hear special Independence Day sermons.

The VFW Post and Auxiliary has invited the contented stay-at-homes to a FREE dance and midnight snack Saturday night at the Old Adobe clubhouse.

Monday will be observed officially as a holiday with virtually all markets, stores and offices closed all day, including the Bank of Sierra Madre, both drug stores, the three eating places, the City Hall, Postoffice and The NEWS office. Royal Drug and Hartman Pharmacies will maintain their usual emergency prescription service by telephone request.

But the Canyon pool, usually closed on Mondays, will be open from 1 to 5 p.m. on July 5 and will be closed the following day.

The Sierra Madre Volunteer Fire department's annual picnic outing for members and families will be underway from 11 a.m. to 6 p.m. Monday at the Wistaria Vine. A full meal will be served at noon and there will be swimming, baseball and other events, according to Charley Brown.

And Monday night Pasadena Firemen will present their 28th annual Circus and Fireworks show in the Rose Bowl, an elaborate event which attracts hundreds from Sierra Madre.

Looking ahead to the new year a Lions club spokesman predicted that the local swimming pool project isn't dead as far as the club is concerned, indicating that "it will be renewed at what seems the proper time."

A regular dinner-meeting of the Lions Club will be held tonight in the Woman's clubhouse.

### Other New Officers

Daniel H. Wilson, Francis B. Barbour and Carl R. Lotze, first, second and third vice-presidents, respectively; George B. Hannaford and Richard B. Reynolds, re-elected secretary and treasurer, respectively; Vern E. Eppard, Lion Tamer; Sam D. Simpson, Tail Twister; Perry H. Brown, Arthur J. Erickson, Percy C. Kortkamp and Paul Landwehr, directors.

Secretary Hannaford pointed out 15 worthy, local projects completed in 1953-54 by the club, stating that while the club views the list with pardonable pride it likewise dedicates itself to another year of community service.

### Accomplishments Listed

Completed projects were listed as follows:

Cooperation with other service clubs in Community Fair a year ago; sent one underprivileged child to summer camp; donated sand for flood protection during winter rains; sponsorship of group of Blue Birds; donation to Sierra Madre concert band;

Also, donated to Rose Parade float; sponsored Soap Box Derby; Christmas party for children; donation to March of Dimes;

Also, sponsorship of Little Coast League team here; supported Junior Students Essay and Senior Students Speaker contests; re-activated local Sea Scout Ship; sponsored first White Cane Day for aid to blind and sight conservation last Sep-

## CARE URGED IN GIVING OUT CLERK CONTEST BALLOTS

Merchants were being warned this week by the Chamber of Commerce to use care in handing ballots in the "Clerk of the Month" contest. Some evidence of ballot stuffing has been seen, Anthony Cavalli, secretary-manager of the Chamber, said today.

According to the rules of the contest, ballots are to be given only to persons making a purchase or completing a transaction.

As a precaution against unfair voting practices, merchants are asked not to leave ballots lying around where they are easily accessible or unattended.

The contest will close Saturday night, July 10, and a committee composed of Lee Shipette, Alfred J. Dewey, Rev. Robert N. Schaper and Mrs. Franz Dougherty will meet Monday night, July 12, to count the ballots.

## Ordinance Amendment Creates H-1-M Zoning

An amendment to Ordinance No. 391, official land use ordinance of Sierra Madre, was adopted recently by the City Council.

The amendment creates a new zone, R-1-M (single family) residence district. First application of the new zone will be to the 22 acres of the Lannan ranch now being subdivided and originally zoned R-1-large.

### WEST GRAND VIEW ZONE CHANGE HEARING ON 13TH

Public hearing before the City Council on zone change applications affecting properties in the West Grand View area has been set for July 13 in the City Hall.

Zone change from R-1 to R-2 has been requested for Lots 6 thru 10 of the Granite Heights Tract and Lot 7 of the Norris Tract.

## Life in Ancient Athens

## Pittinger Tells Kiwanis About Year's Residence in Greece

Speaking from first-hand observation, A. Lincoln Pittinger, chief engineer of the Calorid corporation here, told Kiwanis club members Tuesday that Greece is at least one nation which gratefully attributes its post-war resurgence to aid it has received from the United States.

Pittinger and his family recently spent a year in Athens while he fulfilled a contract as consulting engineer for a Greek firm manufacturing ammunition.

"The Greek economy," he said, "suffered greatly during the war and until 1949."

### Retain Identity

"Despite many successive conquests during their history, the Greeks have not lost their identity as a people, even after 400 years of Turkish domination which ended in 1824," he continued. The speaker also told of the small town atmosphere which prevails, even in Athens, a city of one million population, attributing this to the small proportion of automobiles there.

"The average business man does not own a car and his orbit

is consequently limited," he pointed out.

"The social life of Athens centers in the community squares which are crowded with people every fine evening, just as in the days of Socrates," he remarked.

### Tells of Siestas

"The afternoon siesta is common practice," he recalled, describing the somnolence of the City between about 1 o'clock when shops close and business activity ceases, until about 5:30 when life begins again in the cool of the evening with gatherings in the coffee shops and the central squares. The dinner hour is generally about 9 o'clock at night, Pittinger said.

At Tuesday's luncheon meeting in the Woman's clubhouse, Lawrence C. Bevington, new city administrator here, was inducted into Kiwanis membership by Robert H. Green. He was sponsored by Harry A. Lange.

Guests at the meeting included Lee Mounts of East Pasadena, P. J. Marten of Sanger, Calif., Hugh Warden, Frank Roe of Monrovia, George Shirk of Altadena and Alfred M. Asper of Pomona.

## Council Approves Flood District's Land Acquisition

States Provisions on Reversionary Rights

In an adjourned meeting Saturday morning, the City Council unanimously approved the Planning Commission's recommendations regarding the Los Angeles County Flood Control District's proposed acquisition of property for the construction of debris basins this summer in Auburn and Bailey canyons by the Los Angeles District, Army Corps of Engineers.

Moving rapidly in order to facilitate the stepped-up construction program this summer, the council directed that its approval and recommendations be forwarded immediately to the Flood Control District.

## Rintelman Rites Held Tuesday In Chapel Here

Graveside Services Conducted by Masons

Funeral services were conducted Tuesday afternoon in Ripple Mortuary chapel for Henry Rintelman, 158 W. Highland, who died Saturday, June 26, in Los Angeles General hospital where he had been a patient since suffering a stroke early in May.

A Sierra Madre resident for the past 28 years and a popular lodge and churchman, Mr. Rintelman was 84 years of age at the time of his death.

### Dr. Schaper Officiates

Dr. Robert N. Schaper of Bethany Church officiated at the chapel rites yesterday and a graveside service was conducted in Mountain View cemetery by Worshipful Master James W. Moore of the Sierra Madre Masonic lodge of which Mr. Rintelman was worshipful master in 1944-45. He also was a member of Bethany church.

Until he became so ill himself, Mr. Rintelman had been a member of the Masonic lodge's visiting committee and he called faithfully and frequently on those who were ill or bereaved.

### Pallbearers Listed

Pallbearers included Thomas M. Schwartz, Boyd Keith, Judge John C. Mead, Henry J. Nord and Raymond D. Andrews, all past masters of the Sierra Madre Masonic lodge and Sam D. Simpson, member of the lodge and close friend of the family.

Mr. Rintelman was a native of Milwaukee, Wis.

He is survived by his daughters, Mrs. Irene Beason of Pasadena, Mrs. Erna Stimpfing of Culver City and Mrs. Hilda Kill of Russellville, Ala., and two half-sisters, Mrs. Augusta Schuetz and Miss Hannah Rintelman, both of Milwaukee, Wis.

## Planners Favor Bank's Zone Request

The City Planning Commission, of which Miss Elizabeth Steinberger is chairman, has recommended to the City Council that the Bank of Sierra Madre's request for a zone change on a portion of its new building site be granted. Public hearing on the application will be held before the City Council the night of July 13 in the City Hall.

Bank officials have requested that zoning of R-3 on the rear of their property between 90 and 110 on the south side of Sierra Madre Blvd. be changed to C-1, conforming to the rest of the property, and allowing use for customer parking. The construction of the new bank building at the location is scheduled for this summer.

The zone revision can be effected by the City Council after the hearing July 13. At the Planning Commission meeting last week approval was granted to the Los Angeles County Flood Control District's proposed acquisition of properties in Bailey and Auburn canyons for flood control installations this summer. In its report to the City Council, the commission made certain recommendations concerning reversionary rights to the City, modification of access road engineering and replacement of fire hydrants.

Meeting date of the Planning Commission has been changed from the fourth to the second Thursday of every month.

Condemnation Filed

Meanwhile a spokesman for the district stated Wednesday that condemnation suit already has been filed on the slightly more than five acres of property required in Bailey Canyon for enlargement of the debris basin there. Negotiations have been underway with owners of approximately seven acres in Auburn Canyon, some of it improved, where a new debris basin will be built.

Preliminary to filing condemnation suit on the Auburn properties, two appraisers have been hired by the Flood Control District, their appraisals to be considered along with that of the district's own appraiser.

### City Lists Stipulations

The City Council and Planning Commission have made the following stipulations to Flood Control District:

That the City of Sierra Madre shall retain title to its own property at the toe of Bailey Debris Basin but shall grant an easement for the purposes of maintenance; that where this area is to be used for spoil area it shall be maintained and landscaped in suitable fashion by the District; that when this City property at the toe of the Bailey basin is no longer required the easement shall be lifted and full right for use thereof revert to the City.

Also, that a minimum easement of 30 feet plus slopes for road purposes shall be given to all persons concerned in the Bailey Canyon Debris Basin area, said easement providing access to privately owned property north of the axis of the basin.

Also, regarding the Auburn Canyon Debris Basin, that access to one subdivisible parcel lying westerly of the west toe of the dam shall be provided and an easement given to the owner thereof; that the road as planned by the U. S. Army Engineers shall be paved and provide adequate access to habitable or subdivisible properties lying adjacent to the proposed basin; that access shall also be provided for the reservoir of the City of Sierra Madre situated in Auburn Canyon, and that there shall be no gates or barriers constructed on that portion of the road which is for public use.

The City further stipulates that in both Bailey and Auburn canyons, utility installations, including fire hydrants, shall be relocated at no cost to the city and under supervision of the city administrator.

Also, that it shall be the definite responsibility of the Flood Control District to provide maintenance, proper grading and adequate landscaping with native shrubbery whenever the City Council and Planning Commission shall deem it necessary.

## E. Mae Campbell Dies; Daughter of Former Congr. Minister Here

Word has been received of the death Thursday, June 24th, in Glendale, of Miss E. Mae Campbell, age 78, daughter of the late Dr. James M. Campbell, who was the Sierra Madre Congregational church minister from 1904 to 1912.

Miss Campbell had resided for some time at Pilgrim Place in Claremont but recently had been making her home in Glendale where her brother, J. Morrison Campbell, lives.

Private funeral services were held in Glendale. Miss Campbell also is survived by a niece, Mrs. Jeanne Campbell Chapman of El Paso, Tex.

## Lee Shippey asks

## What Do You Think?

The American Medical association, convened in San Francisco last week, heard a report from a committee of specialists which has shaken the nation.

After perhaps the most complete and unbiased study yet undertaken, the committee decided that cigarettes contribute more than any other one thing to death from cancer and heart disease. While the doctors especially studied men between the ages of 50 and 70, the findings apply to all other smokers to some extent. They divided more than 100,000 cases into groups of cigarette smokers, pipe smokers, cigar smokers and non-smokers and as much as 108 per cent, according to one report I heard by radio, more heavy smokers of cigarettes died of these diseases than

did non-smokers. Pipe smokers fared best in the study, but the indications were that all smoking is somewhat injurious and any habitual smoker who consumes more than a pack a day was likely to shorten his life by around five years.

I hasten to mention this, to beat many of my dear friends to the punch. I am one of the many who have been quitting for 30 years but haven't yet quit. I have quit a thousand times, only shamelessly to bum a smoke or two from someone else and then get so ashamed of bunning that I bought some more and quit bunning—until next time.

Cigarette advertising has been so smart it has made millions of non-smokers push temptation under one's nose.

They imagine the perfect host or hostess must have cigarettes where guests may help themselves. Millions of others think smoking helps them reduce, though plenty of fat persons are heavy smokers. Millions of business men think the way to start a conference is to offer a cigarette. Authors and playwrights fill stage, screen, books and magazines with cigarette-smoking heroes and heroines and the smoke-filled room is part of political strategy.

When prohibition became the law, the cigarette makers were scared. Kansas and some other states banned cigarettes and they feared a national law prohibiting them. So they got prominent society women to let them use their pictures in advertisements telling of the delights and benefits of cigarette-smoking. No one inquired how much stock in tobacco companies might be owned by those women or their families. The impression was created that all the really "smart" people smoked cigarettes and offered them to their guests. And millions of others wished to do what the "smart" crowd did.

Press dispatches say that after hearing the AMA report the doctors kept right on smoking. There is so much money in the business that doubtless clever advertising—and reports from hired specialists—will soon make most of us forget the report. But let's at least be frank. When we offer a friend a cigarette, let's politely say: "Have a cancer seed," or "Have a bit of heart disease."

Last word: In the Old West, when a man invited anyone to the bar, he said: "Name your poison." But that didn't stop anybody either. What fools we mortals be!

## Citizens Group Reports on Water System

(Continued from page 1)

We have continuously provided service to the upper area with our present system of booster pumps, and we feel we can safely continue to do so, especially after replacement of booster pumps No. 2A and No. 3 at the Mira Monte plant. These pumps are worn out and are recommended to be replaced with pumps approximately twice their capacity. Even with our present booster pumps at the Mira Monte plant, we have the capacity to provide 1155 gallons per day per capita which is safely more than the peak use requirement of 550 gallons per day.

Bear in mind the National Board of Fire Underwriters' fire flow requirement for storage in all areas is fully met by our existing reservoirs. The normal use requirement in the upper area totals 493,000 gallons per day, which a single booster pump is capable of supplying. To provide a still wider margin of safety to insure the upper area with an ample supply of water even at peak use periods, we recommend the installation of an additional booster pump at Grove Reservoir, so connected that it would draw on the excess storage capacity of Grove Reservoir and boost water to the upper area whenever pressure in the distribution mains in the upper area was lowered to a pre-determined amount. This suggested new booster would operate only during periods of heavy use in the upper area, or in the event of failure of the booster pumps at Mira Monte Reservoir.

It is a known fact that the booster plant at Mira Monte Reservoir has been struck by lightning on three different occasions, thus establishing it as being in a hazardous location. Inasmuch as we are so dependent on pumping equipment to fill our reservoirs, we recommend that steps be taken to install suitable anti-lightning protective devices at the Mira Monte booster plant. If money is available, we recommend the acquisition of a gasoline or diesel engine standby booster pump to be used to boost water in the event of a major equipment breakdown, or for fire fighting needs. It is our understanding arrangements have been made to borrow equipment of this nature from various cities in the vicinity, but in case of a major disaster, they may also require use of such a unit at the same time as we do.

"Postpone Reservoir" In view of the foregoing, we recommend postponement of construction of the proposed 1,300,000 gallon reservoir for the upper area at the present time, for the reason that its expected cost of \$66,000 is beyond our present capabilities of financing without the elimination of projects much more urgently needed. The only apparent advantage of having this reservoir now is to provide additional storage capacity for peak periods of use, and it has been shown in the foregoing we are well equipped to supply these needs by means of our booster pumps.

If and when money is available, and construction of an additional reservoir is required, we suggest cooperation with the United States Forest Service toward providing a reservoir that will meet our needs and also be of assistance to them for fighting future fires. It is possible that the Forest Service will be in a position to participate in the construction of the reservoir if it is located in a position advantageous to their use.

Another necessary project to be completed without delay is suitable protection against fire and flood damage to Auburn Reservoir. This reservoir should have a metal roof installed to guard against fire. Present plans of the U. S. Engineer Office provide for a debris basin at the mouth of Auburn Canyon below the reservoir, and it is believed the canyon channel will be improved in connection with this undertaking. If it is deemed necessary, a diversion wall could be constructed from the shoulder of the hill which partially protects the reservoir, to help divert flood water past the reservoir and help prevent the possibility of contamination. If the new debris basin will require the relocation of the distribution to Auburn Reservoir, it would be advisable to install a new main of ample size to meet future needs of this area. In the event of a major flood that may put Auburn Reservoir out of service due to damage or contamination, we could still service the area by blocking the distribution main at Auburn Reservoir and serve the users by means of booster pumps located at either Mira Monte or Grove Reservoirs.

## Replace Mains Now

The remaining project in need of immediate attention is the replacement of existing distribution mains that are becoming increasingly expensive to maintain, or that are now too small to efficiently serve the expanded needs of the city. Records kept by the Water Department should indicate the order of preference in making these replacements, and consideration should also be given to replacing small lines on which fire hydrants are located. The most economical method is to perform this work with city forces, coordinating it with the street repairing program, and it is believed work can be scheduled over a period of approximately five years.

With the foregoing recommendations in mind, let us attempt to determine if funds are available without going into debt or raising the water rates. Following are approximate monies available:

Water Dept. Fund as of May 1, 1954.....	\$ 73,000
Govt. savings bonds.....	65,000
Anticipated net revenue to July 1, 1954.....	8,000
<b>Total</b> .....	<b>\$146,000</b>
Less: well.....	32,000
under construction.....	32,000

Balance avail. incl. reserves.....\$114,000  
Following are recommended expenditures for this year:

## BOOSTER PUMPS

No. 2A Mira M. plant.....	\$ 4,000
No. 3 Mira M. plant.....	6,000
New Booster Pump at Grove Reservoir.....	15,000
Including piping to Auburn Reservoir.....	
New portable standby booster.....	3,000
gasoline or diesel engine.....	
<b>SPREADING GROUNDS</b> .....	
Weir construction & alterations.....	3,500
Additional spreading basins.....	20,000
Including obtaining of additional water rights.....	

## REPLACEMENT OF MAINS

Renewal of inadequate and worn out distribution mains.....	\$ 20,000
(\$100,000 divided over 5 years).....	
Pressure reducing valves, etc.....	4,800
<b>OTHER IMPROVEMENTS</b> .....	
Complete automatic pump, controls.....	3,500
Lighting protection at Mira Monte.....	
Booster plant.....	1,000
Fire and flood protection at Aub. Res.....	1,500
<b>ALLOWANCE FOR CONTINGENCIES</b> .....	<b>5,000</b>
<b>Total</b> .....	<b>\$ 87,300</b>

When we deduct the recommended immediate expenditures totaling \$87,300 from the amount of \$146,000 on hand, there remains a balance of \$26,700 for reserve. The Water Department has consistently returned an amount approaching \$50,000 per year net revenue over expenses, and it can be assumed this amount will be available to add to the reserve or spend on needed replacements. With the end of this year, our heavy expenditures at the spreading grounds will be completed, with the result that more money will be available next year.

In preparing the recommendations contained in this report, it has been our aim to offer a constructive plan for spending money on needed improvements, taking first things first, and budgeting expenditures to keep within the limits of monies available. If it proves to be of assistance in arriving at a workable solution, all of the efforts of everyone connected with its preparation will have been worth while.

My warm appreciation to the many friends of my father, Henry Rintelman, during the anxious weeks of his illness preceding his death, and for their assistance to me in my bereavement and their many expressions of sympathy.

IRENE BEASON

## Boy Scout News

Twenty-four Boy Scouts of Bethany church Troop 375, accompanied by four Scout leaders and some parents camped over the weekend recently on the beach at Doheny State Park, San Juan Capistrano. The Scouts did all their own cooking by patrols and still found plenty of time for fishing and swimming Saturday and Sunday and for a big campfire Saturday night. Singing and skits and a talk by Sergeant Fox, a Marine visitor from Camp Pendleton who saw active service in Korea.

Church services were conducted Sunday morning by Fred Morgan, Walter Nagel and Scoutmaster Bill Spargur.

DRIVE CAREFULLY—it might be your own life you save over this coming weekend.

## Campfire Log

Sierra Madre Camp Fire girls gathered recently at the Youth Hut for their Council Fire, based this year on the theme of "Friendship." The simple and picturesque ceremony was under the direction of Mrs. James R. Bowman, as Keeper of the Campfire. Highlight of the evening was the "fly-up" ceremony when the fourth grade girls of the Pretty Little Bluebirds became full fledged Camp Fire girls, each receiving from their mother the traditional red scarf. Receiving this award were Viola Wodrich, Gloria Woodward, Ophelia Ochoa, Sharon Tyree, Janice Johnston, Katherine Thompson, Patricia Mihalovic, Joan Dragon, Lynda Crook and Susan Carlson. Their leaders are Mrs. Alan Thompson and Mrs. Marcus Woodward.

Members of the O-Top-A Camp Fire girls, sixth graders now leaving Sierra Madre school, honored their parents with a gay "White Elephant" party at the home of Mrs. William Harris, their leader. Ice cream, and cupcakes made by the girls were served after all the trading. The girls then surprised Mrs. Harris and her co-leaders, Mrs. Severin Sorensen and Mrs. Tom Willis, with gifts of handkerchiefs.

For their final party of the year, the fifth graders of Aowa-ki-ya Camp Fire girls, under the leadership of Mrs. Bernard Garson and Mrs. William Waite, went for an overnight campout in Sierra Madre Villa park. Opened only recently, under the capable direction of Mr. Tom Brown, this newest county park offers all Sierra Madreans a wonderful chance to get acquainted with the nature lore of their own area.

Tama-Pit-Kin, eighth graders from Sierra Madre, collected 80 pounds of warm clothing and delivered them to the Quaker headquarters in Pasadena for distribution in Korea. The need for warm clothing—especially mittens, coats and sweaters—for small children is especially great. The girls' leader, Mrs. Edward Wodrich, 261 N. Lima, will be glad to collect clothing at her home from anyone wishing to help this most worthy cause. Almost anything warm can be used, the Korean women being clever with their needles and able to make over any garment for their children.

The most dangerous part of a car is the nut that holds the steering wheel.

## Demo Club Sets Picnic For July 10

The Sierra Madre Democratic club will sponsor a picnic Saturday, July 10, in Sierra Madre Villa park, the new County park, which seems sure to become a recreational and educational asset to this entire area. William (Bill) Roskam, Democratic candidate for Congress, and Peter Hazell, Democratic candidate for Assembly, will be there to meet and talk with any who wish to question them, but there will be no speeches nor any other political activity.

The crowd will begin to gather at about 4 p.m. and a barbecue supper will be served at about 5:30. Kurt Mueller, president of the club, hopes everyone interested will drop in and get acquainted.

The park is shaded with live oaks and includes a good bridge path, a hiking trail, picnic tables, camp stoves, a fire ring and a natural museum in which a Ranger will instruct groups in the habits of both the plants and animals native to this area.

## Monson-Conzelman Rites June 25th at Sierra Madre Congregational Church

Julie Elizabeth Conzelman, daughter of Mr. and Mrs. John Edward Conzelman, 658 Mariposa, became the bride of James Edward Monson, son of Col. and Mrs. George Edward Monson of Palo Alto, June 25 at a small wedding attended by relatives and close friends at the Sierra Madre Congregational church. The Rev. Carl C. Smith officiated.

The bride, attired in a white embossed cotton princess style ballerina-length gown, was given in marriage by her father. She wore a flowered coronet and carried a nosegay of white garden flowers.

Gretchen Conzelman was her sister's maid of honor and two other sisters, Mary Katherine and Jean Anne were junior bridesmaids. The bride attendants all wore delphinium blue cotton princess style dresses and carried garden flower nosegays. Their flower coronets matched their bouquets.

The best man was Jackson Bannels and the ushers were Ems. E. Belmont, Herring and Richard Flynn. All of the boys were Stanford University friends of the groom.

Mrs. Conzelman wore a dusty rose cotton gown accented by white accessories.

The groom's mother was attired in a mauve taffeta dress and wore blue accessories.

A reception was held immediately following the ceremony in the home and gardens of the bride's parents.

Following a northern honeymoon the newly married couple will make their home in Palo Alto where the bride will continue her studies at Stanford and the groom will prepare for his Masters degree on a National Research Foundation Fellowship.

The bride is a graduate of the Sierra Madre Elementary school and John Muir Junior college.

Mr. Monson is a member of Kappa Alpha fraternity and Phi Beta Kappa, honorary scholastic society. He graduated from Stanford University last month "with great distinction."

## Artists Association Has Monthly Meeting

Members of the Pasadena Artists association held their last meeting in the Altadena gardens of Mr. and Mrs. Bland Sloan.

The meeting was in the form of a monotype party and each member made his own print.

Roger Hayward, president, announced the Art Fair committee will be headed by John Wilson with Esther Larson and Stuart Weber working as committee members.

## YOUNG MUSICIANS APPEAR IN RECITAL

Piano students of Miss Irma Parker of Pasadena were presented in a formal recital June 22 in the Shakespeare club, Pasadena.

The Sierra Madre students appearing on the program included Shirley Cook, Ludmilla Pereselenko, Donna and Patricia Mihalovic, Mary Elizabeth Cring, Barbara Tate and Richard Anderson.

Other young musicians from Hastings Ranch, Sanita Anita Homes and this immediate area included: Kathy and Dick Anderson, Jed and Randy Kusik, Jeannine Smith, Jane and Mary Dillon, Carolyn Mahoney, Mary and David Kratzer, Patty and Sally Johansing, Rolland Crosby, Geoffrey Scott, Cheryl Peters, Barbara and Carol Siechert, Julie Bessers, Joyce Dunkerly, Judith Gramme, Drane Fisher, Sharon Summerhays, Karen Vocee, Bonnie Rabun, Stephanie Holmes, Tina Schoenberg, Lieueen Van Amersfoort, Robert Snyder, Tom Sidler, Eugenie Bernthal, Carol and Jacqueline Woodruff.

Also, Hobart and Ann English, Larry Stafford, Yvonne and Helen Hargens, Cheryl Jordan, Rozella Boggio, Carl Pearson, Barbara and Patricia Cain, Dorothy McAtee, Doris Stone, Wanda Sandidge, Julie and John Albi, Perre and Evelyn Clausen, Eleanor Desatorf, Barney Benke, Naida Opperman, Evelyn Wilson, Susan and Sally Hoocher, Gale Millard and Mary Gear.

## Porterfields Return From 10-Day Trip to Oak Creek Canyon

Mr. and Mrs. A. R. Porterfield, 214 W. Carter, returned recently from a 10-day trip to Oak Creek Canyon in Arizona on which they were accompanied by Mr. Porterfield's sister, Miss Daisy Porterfield of Long Beach. The party stopped off at Grand Canyon on the return journey.

The Porterfields' daughter, Miss Lucie Anne Porterfield, is doing graduate work at Claremont this summer and plans to return to Columbia university in New York City in the fall. Her parents will accompany her back east at that time.

## Social and Club Activities

Photo by S. E. Peterson

MRS. JAMES EDWARD MONSON is honeymooning in northern California following her marriage June 25 at the Sierra Madre Congregational Church. The bride is the former Julie Conzelman, daughter of Mr. and Mrs. John Edward Conzelman, 658 Mariposa.

## C. F. Morse Attends Recent Music Festival

Charles Frederic Morse, 262 E. Highland, recently returned from Santa Barbara where he attended four days of the 10-day second annual Pacific Coast music festival.

A chamber orchestra of 30 musicians from the San Francisco Symphony were led by Antal Dorati, conductor of the Minneapolis Symphony. Soloists were Yehudi Menuhin, violinist, and Jascha Veissi, violist.

Among those in Mr. Morse's party were Mr. and Mrs. Richard Stumm of Glendora, Dr. and Mrs. Douglas Wright Jr. of San Marino, and Louis Ling who is spending a month's visit with Mr. Morse from his Detroit, Mich., home.

## VFW Plans Party July 3 for Holiday Stay-at-Homes Here

Records by top dance bands as well as old-time favorites will provide music for dancing Saturday night, July 3, at the party which Harry L. Embree post, Veterans of Foreign Wars, and Auxiliary, have planned for those couples who are staying in Sierra Madre over the holiday weekend.

Open free to the general public the dance will be held in the Old Adobe clubhouse, 37 East Montecito. During dance intermissions, Ramon Coppotelli, accordionist, will entertain.

A late snack, hot dogs and coffee, will be served shortly before midnight. The house committee of the VFW post and a special committee of auxiliary members are planning the holiday affair.

## PTA Executive Board Votes in Lorne Pratts

Mr. and Mrs. Lorne B. Pratt were voted third vice-presidents at the last executive board meeting of the Sierra Madre Elementary PTA meeting. Mr. and Mrs. Pratt will be in charge of the annual Halloween Carnival.

The Pratts are replacing Mr. and Mrs. Rolland B. Rountree who are moving to a new home in Covina.

## Herbert Kelley Family Moves to Monrovia

Mr. and Mrs. Herbert Kelley, 379 Sycamore, and their daughter Karen will be leaving Sierra Madre this week, after an 11-year residence, to make their home in Monrovia.

Mrs. Kelley has taken an active part in the Sierra Madre Community Nursery school and the Church of the Ascension Parish day school.

The Kelley's new address will be 256 N. Encinitas, Monrovia.

## New Guild Circle Sets Sewing Meeting

Designated Omega, a new circle of the ever-enlarging Trinity Presbyterian Church Guild has been formed with Mrs. E. A. Fairlamb, Jr., and Mrs. Billings K. Ruddock as co-chairmen.

The new circle will meet the second Wednesday in July at the home of Mrs. Don McNeil, 935 Cynthia, to do sewing for the church bazaar coming in November.

The NEWS wants your news.

## Mrs. Al L. Pruitt Honors Visitors

Mrs. Al L. Pruitt, 3810 Cartwright, was hostess recently at a party honoring Mrs. Alma L. Ford of Indianapolis, Ind., who is visiting her son-in-law and daughter, Mr. and Mrs. Clifford R. Vokes, 1105 Valley View, and Mrs. Norma Jo Alford of Houston, Tex., who is visiting her aunt, Mrs. William Teir, 3820 Cartwright.

Among those in attendance for the happy affair were Mrs. Gordon K. Wright, Mrs. James A. Gittinger, Mrs. William F. Spalding, Mrs. Robert V. Gibson, Mrs. Frederick S. Daenitz, Mrs. J. Cranor Richter, Mrs. Charles E. Cowen, Jr., Mrs. R. Stewart McIlvannan, Mrs. Cecil W. Davis, Mrs. Mary Lyness.

## Susan Burdick Is Y-Conference Member

Susan Burdick, daughter of Mr. and Mrs. Dunbar Burdick, 3845 Greenhill, and Judith Green were representatives from Wilson Junior high Y-Teens at the YMCA conference at Asilomar last week.

The week before the conference the Burdicks entertained one of 12 delegates from Honolulu, a young Japanese girl, and reported her interesting and charming.

## Taylor's Entertain 'Picnic' Cast Member

An interesting visitor in the Ranch last week was Shirley Smith, a member of the cast of "Picnic," playing at the Biltmore, and a magazine fashion model.

A cousin of Mrs. Dan Taylor, 3855 Canfield, Miss Smith obtained excellent seats for the Taylors at the play and spent some time in the Ranch catching up on family talk. She has the part of the younger sister in "Picnic," which has now moved on to San Francisco.

## Christmas Family Enjoys Canyon Trip

Home again after a camping trip through the west's great canyons are Mr. and Mrs. Robert H. Christmas, 3610 Fairmeade, and their three youngsters.

Leaving a few days before school closed and thereby avoiding desert heat and large crowds of other tourists, they visited Boulder Dam, Zion National park, north and south rims of Grand Canyon and Bryce Canyon. They hooked a tear-drop trailer to their station wagon and camped along the trail.

## Summer Playground Sponsored by PTA

The Don Benito school PTA has been successful in initiating a summer playground program to be held each morning at the Don Benito school grounds for a 10-week period.

The program was financed by means of donations from those families whose children were interested in participating.

The donations were encouraging, although they fell short of the goal of \$600. The cooperation of the Pasadena Department of Recreation in assuming the deficit has enabled this program to be realized.

As of June 25 the fund-raising drive for this summer playground was completed, and any additional funds donated now will be earmarked for student recreational purposes for the coming year.

The efforts of Mrs. Sam Rudnick, recreation chairman, was instrumental in getting this program under way.

There is need for story books, song books and an old phonograph. Any donations will be appreciated.

## Board Meeting Set

The final executive board meeting of the Don Benito PTA for this school year was held on the evening of June 22 at the Don Benito Elementary school to set up the PTA program for the coming year.

Program Committee Chairman Mrs. Leroy Anderson submitted a report on the planning of programs for next year's PTA meetings which will feature school education and parent education.

Mrs. William Taylor, Parent Education chairman, outlined a proposed pre-school program for the parents of the children entering kindergarten this fall. This was initiated to acquaint the parents with school procedure and to evaluate the child as to his place in the school, family and society.

## CLUB MAKES TOUR, HAS SWIM PARTY

Las Veinte Vecinas was to enjoy a trip to the county arboretum today, followed by swimming and lunch at the home of Mr. and Mrs. Harold R. Sweet, 610 Rim Rd.

## Residents Meet to Plan Sunday Schools

A group of Ranch residents have banded together to organize an Episcopal Sunday school which will meet in the Ranch vicinity but will be under the direction of St. Mark's church in Altadena.

Philip Benton, chairman of the group, has announced there will be a meeting Monday, July 12, at 8 p.m. in the home of Mr. and Mrs. Richard N. Bacon, 1380 Valley View. All those interested in helping to further this project are encouraged to attend this meeting.

## RESTAURANT OFFERS SPECIAL ROAST BEEF

By GLADYS GOURMET

The Terrace Restaurant in West Arcadia is offering the most amazing value as a Tuesday Special that this writer has ever heard of in many years of writing about restaurants.

Every Tuesday, you get a perfectly fabulous thick and juicy cut of the very finest prime rib bubbling in its own succulent juices plus an enormous, piping hot Idaho baked potato (with plenty of creamery butter) for just \$1.75. Now this is exactly the same a la carte special that they offer for \$3.00 every other day of the week.

Keith Ferguson, the Maitre D', explains this bargain by saying that the Terrace Restaurant does excellent business every night but Tuesday and he wants to get people in the habit of going out to dinner on a Tuesday at the Terrace.

So hurry to this unique dining spot any night—but particularly Tuesday for their Regal roast beef. That's the Terrace Restaurant at 720 Duarte Road in West Arcadia. (Right next to Hinchshaw's Department Store at Baldwin and Duarte). Dinner from 5:30 to 9:30. Phone DOuglas 7-6977.

## News of the Churches

ASCENSION PARISH DAY SCHOOL graduated its third class of eighth graders in exercises June 17 in the Church of the Ascension followed by a reception in the parish hall. Pictured above with the parish priests and a home room teacher are the 10 graduates: Left to right, front row: Barbara Carlson, Mrs. Alta S. Robinson, eighth grade teacher; Sylvia M. Laitinen, Kathleen Sauter, Linette-Jeanne Holt, Malinda Jane Howell, Patricia Ann Stetson and Eleanor D. White; back row, The Rev. Stephen Dibble, science and religious education teacher; Brian Borneman, William Packard, Christopher Mecca and the Rev. Harley Gibbs Smith Jr., rector.

#### Congr. Bible School Open House Tonight

Sunday School 9:15  
Worship Hour 10:30

open house from 7:30 to 8:30 tonight in Pritchard hall of the church.

The Bible school will come to a close tomorrow. A program has been planned for tonight, together with classroom visits. The approximately 100 children who have been attending will display the results of their studies and handicraft projects.

Velma Embree, director, reports that the teaching staff is highly pleased with the accomplishments of the youngsters at all grade levels. The theme of the Bible school, "The Story of Our Church" proved to be a good basis for many interesting sessions and held the enthusiastic interest of the children throughout the 2-week school.

BE SURE TO GO CHURCH OVER THE WEEKEND.

## Ascension School Graduates Class of 10 Eighth Graders

BISHOP GOODEN PRESENTS DIPLOMAS; AWARDS, CLASS GIFT ALSO HIGHLIGHTS

Presentations of diplomas, awards and a scholarship, an address by the retired suffragan bishop of Los Angeles, and presentation of the class gift to the church were high points of Ascension Parish Day school graduation exercises on June 17 in the Church of the Ascension. A reception honoring the class of 10 eighth grade graduates followed in the parish hall.

The Sisters of St. Mary Award in recognition of Christian citizenship, leadership, character and scholarship was presented by the rector, the Rev. Harley Gibbs Smith Jr., to Barbara Jean Carlson and Patricia Ann Stetson. Prizes for "loyal and generous service to the school and church" were presented to Brian Borneman and Christopher, the only two members of the graduating class who started in second grade Ascension school in 1947, the year the school was started here.

#### Scholarship Given

A scholarship for the year 1954-55 was presented to Jeffrey Rickard of the seventh grade in recognition of the contribution he has made in serving as organist for the school services.

On behalf of the graduating class, William Packard presented to Sister Noel, principal, a check for \$100 which members of the class earned during the year by selling magazine sub-

scriptions. The check will be used to defray the cost of one of the new church pews installed recently.

Others in the graduating class, all of whom received their diplomas from the Rt. Rev. Robert B. Gooden, retired suffragan bishop of Los Angeles, included Linette-Jeanne Holt, Malinda Jane Howell, Sylvia M. Laitinen, Kathleen L. Sauter, and Eleanor D. White.

#### Bishop is Speaker

In addressing the graduates, Bishop Gooden emphasized the fact that while education includes the acquisition of knowledge, it also includes the development of character, an attitude of reverence toward God and all of God's creation including one's self, and of the practice of Christian citizenship as intelligent members of home, community and nation.

Seventh grade students and their parents were in charge of arrangements for the reception which followed the graduation. On Friday the graduates were guests of the Parents Club at brunch in Eaton's restaurant.

The school year closed June 18th with the reading of honors for the lower grades following chapel service.

Ascension school was established with four grades in 1947. One grade was added each year through 1952 when the first class of eighth graders was graduated.

## Demonstration Friday Ends Bible Classes

First Baptist Picnic Set for Saturday

A demonstration program will be presented at 7:30 p.m. tomorrow in First Baptist church by boys and girls who have been attending the two-week Daily Vacation Bible school at the church. The youngsters will sing and give recitations. The juniors will give a lesson on the "flannelgraph" board and the intermediates will present a puppet show using puppets they have made themselves.

Other handwork by the children will be on display for visiting parents and friends to see. The program is open to the public.

On the following day, Saturday, July 3, members and friends of the church will gather at the church at 10 a.m. to go to Arcadia County park for a picnic. There will be games, sports, swimming and lunch at the noon hour.

#### Sermon for Fourth

For morning services at 11 o'clock on Sunday, the Fourth of July the pastor, the Rev. Edward J. Kriz, has chosen for his sermon the subject, "Better Things for Us." His message at the evening service at 7:30 p.m. will be on the subject, "Face to Face."

## LEGAL NOTICE

No. 81  
ORDINANCE NO. 540

**AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF SIERRA MADRE, CALIFORNIA, REGULATING THE MAKING OF EXCAVATIONS OTHER THAN IN PUBLIC STREETS; PROVIDING FOR THE ISSUANCE OF PERMITS THEREFOR AND PROVIDING A PENALTY FOR THE VIOLATION THEREOF.**

THE CITY COUNCIL OF THE CITY OF SIERRA MADRE DOES ORDAIN AS FOLLOWS:

## SECTION 1. EXCAVATIONS FOR WHICH A PERMIT IS REQUIRED.

It shall be unlawful for any person to make, or cause or permit to be made, any excavation or fill in, under or upon the surface of any land, public or private, in the City, without first obtaining a permit to do so, in the manner hereinafter provided; or in violation of any of the terms or conditions of such permit; provided, however, that no permit shall be required for (1) excavations for the foundation or basement of any building for which a building permit has been issued, or (2) for grading in subdivisions according to plans which have been approved by the City Council, or (3) for excavations that will not exceed 500 cubic yards, or (4) for the grading of any parcel of land where no cut bank is left standing more than three (3) feet in height and the excavated material is not removed from the land from which it is excavated, or (5) a fill which does not exceed five (5) cubic yards of material on any one recorded lot, or a fill which does not exceed three (3) feet in vertical depth at its deepest point measuring from the natural ground surface and the surface of which has no slope at any point steeper than five horizontal to one vertical.

## SECTION 2. EXCAVATIONS AND FILLS.

No excavation shall be made with a cut face steeper in slope than one horizontal to one vertical and no fill shall be made which creates any exposed surface steeper in slope than one and one-half horizontal to one vertical. The City Administrator may, upon request, permit deviations from this standard provided the owner shall first furnish the City with a written opinion of a Civil Engineer licensed by the State of California and experienced in soil compaction and erosion control, who shall be acceptable to the City certifying that he has investigated the site and that the proposed deviation would not be made with a cut face flatter in slope than one horizontal to one vertical if it finds the material in which the excavation is to be made unusually subject to erosion, or if other conditions make such flatter cut necessary to safety and safety. The City may require that the fill be constructed with an exposed surface flatter than one and one-half horizontal to one vertical if it finds the material under the particular conditions, such flatter surface is necessary for stability and safety.

All fills intended to support buildings or structures shall be made to a minimum of ninety (90%) per cent compaction. Compaction of other fills shall not be required except where the City Engineer or City Administrator determines that compaction is necessary as a safety measure to aid in preventing the saturation, slipping or erosion of the fill. The per cent compaction required shall depend upon the particular circumstances and type of fill involved. Where compaction is required it shall be done in accordance with the rules of the City which shall include but not be limited to the following:

1. Preparation of the natural ground surface by removing top soil and vegetation and by compacting the fill upon a series of terraces.
2. Control of moisture content of the material used for fill.
3. Limitation on the use of various kinds of materials.
4. Maximum thickness of the layers of the fill to be completed.
5. Method of compaction.
6. Density requirements of the completed fill depending upon the location and use of the fill.
7. Tests required during the process of filling.

## SECTION 3. PROCEDURE ON APPLICATION FOR PERMIT.

The application for any permit referred to in Section 1 hereof shall be filed with the City Clerk in triplicate, the original being verified. The application shall set forth the following information:

(a) A full identification, and the residence and business address of the applicant and the owner or owners of the land on which the excavation is proposed to be made, including all members of any firm or partnership, and the president and secretary of any corporation whose benefit the permit is asked, this fact, with a full identification of such person and his business and residence address, shall be stated in the application.

(b) A complete description and location of the property on which the excavation is to be made.

(c) The exact nature of the proposed excavation and material to be removed, and an estimate of the approximate number of cubic yards to be removed.

(d) A statement of the manner in which it is proposed to excavate and remove the excavated materials, including the slope of the sides and the level of the floor, the kind of equipment proposed to be used in making such excavation and removing such material, and whether the materials are to be removed for sale or for delivery at some other place in fulfillment of any agreement to provide filling material at such other place.

(e) The time within which such excavation is to be commenced after the granting of such permit, and the time when it is expected to be completed.

(f) The route which applicant proposes to use over public streets and private property in transporting such materials.

(g) The location of the place or places of delivery; provided, however, that, if delivery is to be made in small quantities to numerous places, a general description of the location of the contemplated deliveries will be sufficient. The requirements contained in this subsection shall be in the discretion of the City Administrator.

(h) Such further information as the City Administrator, Superintendent of Streets, City Engineer, or Planning Commission may require.

At the time of the filing of the application herein provided for, applicant shall file with the City Clerk a topographic map of the property on which the proposed excavation is to be made, covering an area having a radius of 500 feet, so far as possible, from the exterior boundary of the proposed excavation.

## SECTION 4. PAYMENT OF FEES.

At the time of filing the application, the applicant shall pay a filing fee of Twenty-five Dollars (\$25.00) to cover the cost of the City's investigation of such application. At the time such application is granted, the applicant shall pay an additional fee to cover the expense of inspection and examination of the progress of the excavation at the rate of One Dollar (\$1.00) per each 1000 cubic yards, or fraction thereof, of material which the permit authorizes the applicant to remove from the proposed excavation. All fees shall be paid to the City Treasurer. When the excavation is to be made by the United States, the State of California, the County of Los Angeles, or any agency of either, no fees of any kind shall be required.

## SECTION 5. INVESTIGATION AND RECOMMENDATION.

Immediately upon the filing of an application for a permit to excavate, one copy of such application shall be delivered to the City Administrator, and one copy to the Chief of Police. The City Administrator shall have an investigation made of the facts alleged in the application, and within five (5) days from the date of filing such application shall either grant such permit with or without modification, or deny the same in whole or in part.

## SECTION 6. CONSIDERATION BY THE CITY ADMINISTRATOR.

The City Administrator may grant in whole, or in part, or deny such application. The City Administrator, in granting in whole or in part, or in granting on conditions expressed in the permit, or in denying, any application for a permit to excavate, shall take into consideration the character of the applicant as respects honesty and integrity, his experience in the matters to which the permit appertains, his financial responsibility, and all pertinent matters concerning the proposed excavation which may affect the public health, safety or general welfare in the district in which the excavation is proposed to be made and shall exercise reasonable and sound discretion in the premises. The application shall be denied if it shall appear to the City Administrator from the investigation that such excavation would remove the lateral and subjacent support of the adjacent land, or would result in a dangerous topographic condition, or result in seepage or slides, or would create or increase an attractive nuisance dangerous to the public safety, or would otherwise in any manner endanger the public health or safety, or be detrimental to the public welfare, despite all precautions which the applicant is willing, ready and able to take.

## SECTION 7. BOND AND CERTIFICATE OF INSURANCE.

The City Administrator shall require, as a condition to the granting of any permit hereunder, that the applicant deposit with the City Clerk a surety bond, in an amount fixed by the City Administrator, not exceeding the sum of Fifty Thousand and no/100 Dollars (\$50,000.00), insuring to the benefit of the City and of the general public, guaranteeing that the applicant will faithfully perform all of the conditions and requirements specified in the permit, and will repair to the satisfaction of the Superintendent of Streets any damage caused to the city streets or other city property, by the proposed grading or removal of material, or transportation of material or equipment. Such surety bond shall be executed by sureties approved by the City Administrator as being sufficient in number and financial responsibility.

## SECTION 8. PREVENTING COLLAPSE OF SIDES OF EXCAVATIONS.

In order to minimize the danger of collapse of adjacent lands into the excavation, the City Administrator shall specify in the permit the permissible angle of slope of the sides of the excavation. No side of such excavation may be made steeper at any point than the angle so specified in the permit, unless supported by a substantial, permanent retaining wall of sufficient strength permanently to support such side or sides of the excavation, and constructed in accordance with a permit to do so, as provided herein. Such retaining wall shall be of concrete, brick, stone, or other material not subject to deterioration, and shall extend the

full height and length of each side of such excavation which is at any point made steeper in slope than the angle specified in the permit to excavate. If the applicant desires to cut any side to excavate, he shall so state an supplemental application, and shall file therewith, in triplicate, detailed plans and specifications for such retaining wall. One copy of such plans and specifications shall be forthwith delivered to the Building Inspector, who shall examine the same and shall promptly report to the City Administrator, whether the retaining wall, if built according to the City such plans and specifications will satisfy the requirements of the Building Code and the requirements of this section. Upon the approval of such plans and specifications by the Building Inspector and the issuance of a building permit therefor, the City Administrator shall issue a permit to excavate, or in a supplemental permit to excavate, a provision allowing the sides of such excavation to be made steeper than the angle of slope specified therein, if supported by a retaining wall constructed according to such plans and specifications.

## SECTION 9. OTHER CONDITIONS REQUIRED OF APPLICANT.

Any person to whom a permit to excavate is issued shall also comply with the following requirements:

(a) The bottom of such excavation shall not be made lower than the level specified in such permit to excavate or in a supplemental permit to excavate.

(b) Permittee shall be required to prevent surface waters from damaging the cut face of the excavation or the sloping surface of a fill by installation of drainage structures which will carry surface waters to street, storm drain, or natural waterway.

(c) If, in the opinion of the City Administrator, any such excavation will create or aggravate a dangerous condition if left open, such excavation shall be enclosed by a fence sufficiently high, tight and strong to eliminate such dangerous condition.

(d) Permittee shall be required to maintain all existing structures such as walls, cribbing, drains, etc., in good condition and to replace those found to be unsatisfactory.

(e) All vehicles, rock, earth, or other material which may be dropped or deposited on any public street or place from any vehicle transporting such materials from any such excavation shall be immediately removed in a manner and to an extent satisfactory to the Superintendent of Streets, at the expense of the person to whom the permit to excavate was issued.

(f) All vehicles, rock, earth or other materials from such excavation over the public streets of the City shall travel only directly over such public streets as may be directed by the Chief of Police and the Superintendent of Streets to be least dangerous to public safety, cause the least interference with general traffic and cause the least damage to the public streets.

(g) In the event the City Administrator modify or deny in whole, or in part, any application for a permit as provided for in this Ordinance, within five (5) days of such decision, he shall notify applicant in writing by registered United States mail of such modification or denial, stating the reasons therefor.

(h) In the event the City Administrator modify or deny in whole or in part any application for a permit as provided for in this Ordinance, applicant may file with the City Clerk a written notice of appeal to the City Council from such decision. Such notice of appeal must be filed within ten (10) days of the mailing of such notice provided for in subdivision (a) of this section. In such event the City Clerk shall set the hearing on such appeal before the City Council for the second succeeding regular meeting of the Council after the date of filing such notice.

At the time applicant files such notice, he shall also file with the City Clerk a list of the names and addresses of all owners of property within a radius of 500 feet of the proposed exterior boundaries of the proposed excavation, as such names and addresses appear on the last equalized assessment roll of the City.

(c) The City Clerk shall mail notices of such hearing, at least ten (10) days before the date set therefor, addressed to the applicant and to owners of the property within a 500 foot radius of the exterior boundaries of such proposed excavation as their names and addresses appear on the last assessment rolls of the City.

(d) At least ten (10) days before the date set for such hearing, the Superintendent of Streets shall post printed copies of such notice bearing title "Notice of Excavation" in block letters at least three (3) inches in height, not more than 300 feet apart, for the proposed excavation on each public street or highway approaching the proposed excavation.

(e) At the time set for such hearing the Council may summon witnesses and hear evidence relating to such application. The Council may continue the hearing from time to time. At the conclusion thereof, the Council shall make its findings thereon and may grant or deny such application, or make such modifications with reference thereto as it may deem fit. The findings and order of the Council shall be final and conclusive on applicant, and no application for the same purpose may be made for one year after the date of such findings and order.

(f) The Council may continue the hearing from time to time. At the conclusion thereof, the Council shall make its findings thereon and may grant or deny such application, or make such modifications with reference thereto as it may deem fit. The findings and order of the Council shall be final and conclusive on applicant, and no application for the same purpose may be made for one year after the date of such findings and order.

## SECTION 11. REVOCATION OR SUSPENSION OF PERMIT.

Any permit granted hereunder may be revoked only by the Council as in its discretion may seem reasonable and just for any reason for which the issuance of such permit might lawfully be denied, or for any failure to comply with any of the terms of this Ordinance or of such permit. Revocation of such permit shall be made only upon a hearing before the Council, after at least five (5) days' notice to permittee. Such notice shall be in writing mailed by registered United States mail addressed to permittee at his business or residence address as stated in his application for a permit.

## SECTION 12. REVOCATION—NOTICE.

All provisions of Section 10 for giving notices to persons other than permittee, hearings, findings, orders, and conclusiveness of such findings and orders shall apply to this section; provided, however, that the minimum time for any notice required by this section shall be five (5) days.

The City Administrator or Council may suspend any permit granted hereunder pending the hearing herein provided, where, in his or its opinion, the public health, safety or welfare require it.

## SECTION 13. EXPIRATION OF PERMIT—ISSUANCE OF SUPPLEMENTAL PERMITS.

In the event that any excavation for which a permit has been granted hereunder is not commenced within six (6) months from the date of issuance of such permit, or in the event that work on such excavation is at any time abandoned for a period of six (6) consecutive months, such permit shall automatically expire, without notice and no further excavation shall be made; however, the conditions expressed in such permit shall remain binding upon the person to whom such permit was issued, and all legal and equitable remedies shall be available against him for any breach thereof. When the amount of material excavated equals the number of cubic yards which such permit authorizes to be excavated, or if excavations vary from the terms of the permit, no further excavations may be made until a new or a supplemental permit to excavate has been issued. In either event herein set forth an application for a supplemental permit to continue or enlarge the excavation may be filed, setting forth all the information required for the original application and not contained therein. No further filing fee shall be required. But if such supplemental permit is issued, the applicant shall pay an additional material which such supplemental permit may authorize him to excavate. The City Administrator may dispense with any further investigation or hearing, if in his opinion the information furnished him by the original investigation is sufficient to enable him to determine whether the supplemental permit should be issued and upon what conditions, if any.

## SECTION 14. DENIAL OF SUPPLEMENTAL PERMIT—RIGHT OF APPEAL.

In the event a supplemental permit be refused, permittee may appeal to the City Council in the manner provided in Section 10 hereof for an appeal from a denial of a permit, and all provisions of said section for giving of notices, hearings, findings, orders and conclusiveness of such findings and orders, shall apply to this section.

## SECTION 15. PERMIT DOES NOT EXCUSE NON-COMPLIANCE WITH OTHER ORDINANCE PROVISIONS.

Nothing in this Ordinance, or in any permit granted hereunder shall be deemed to authorize the doing or omission of any act contrary to any term or provision of the Building Code or any other Ordinance or license of this City, or without any license or permit otherwise required by such term, provision, ordinance or license.

## SECTION 16. PENALTY AND EFFECT OF ORDINANCE.

Any person, firm or corporation violating any of the provisions of this Ordinance shall be deemed guilty of a misdemeanor and upon conviction thereof shall be punished by a fine of not more than Five Hundred Dollars (\$500.00) or by imprisonment in the County Jail for a period of not more than six (6) months or by both such fine and imprisonment.

SECTION 17. The City Clerk shall certify to the adoption of this Ordinance and prior to the expiration of fifteen (15) days from the passage thereof shall cause the same to be published once in the Sierra Madre News, a newspaper of general circulation, published and circulated in the City of Sierra Madre, and thirty (30) days from and after the final passage thereof said Ordinance shall take effect and be in force.

HEREBY CERTIFY that the foregoing Ordinance was adopted at a regular meeting of the City Council of the City of Sierra Madre, held on the 22nd day of June, 1954, by the affirmative vote of at least three Councilmen, to wit:

AYES: Councilmen Roberts, Pratt, James and Louk.  
NOES: None.  
ABSENT: Councilman Wood.

L. MARIE WARFEL,  
City Clerk of the City of Sierra Madre

SIGNED AND APPROVED this 22nd day of June, 1954.

CHARLES E. LOUK,  
Mayor of the City of Sierra Madre

ATTEST:  
L. MARIE WARFEL,  
City Clerk

Publish July 1, 1954.

V. T. PRATTS HOST  
V. C. KNIGHT FAMILY

Mr. and Mrs. V. C. Knight and their daughter, Darleen, of Reddie, Ore., were the guests of the V. T. Pratts, 281 Sturdevant, for several days.

## LEGAL NOTICE

No. 84  
NOTICE OF PUBLIC HEARING

## BEFORE THE CITY COUNCIL

NOTICE IS HEREBY GIVEN that the Bank of Sierra Madre has filed with the City Council of the City of Sierra Madre an application for zone change from R-3 (Multiple Dwelling) to C-1 (General Commercial) as to certain real property described as:

Lot 17, N. H. Hosmer Subdivision of Block "X", in the City of Sierra Madre, as per map recorded in Book 12, Page 81, Miscellaneous Records, in the office of the County Recorder of said County.

Except that portion of said Lot included within the lines of Central Avenue (Sierra Madre Blvd.) as widened to 80 feet by deed recorded in Book 2571, Page 237 of Deeds.

That pursuant to the provisions of Ordinance No. 391 of the City of Sierra Madre, as amended, the City Council of the City of Sierra Madre, at a regular meeting held June 22, 1954, fixed Tuesday, July 13, 1954, at the hour of 8:00 o'clock P.M. in the Council Chamber of the City Hall of Sierra Madre as the time and place for holding a public hearing upon said application.

The application for change of zone is based upon the grounds that there are special circumstances attached to said property which generally do not apply to other property in the same district; that the granting of a zone change as aforesaid will not result in a material damage or prejudice of other property nor be detrimental to the public welfare or injurious to persons in the vicinity thereof.

Dated: June 22, 1954.  
BY ORDER OF THE CITY COUNCIL OF THE CITY OF SIERRA MADRE  
L. Marie Warfel,  
City Clerk

Publish July 1.

## Nice Spot for a Picnic?

Repeat after me:  
**I WILL BE CAREFUL!**

It was... just a short while ago. People came here to relax and enjoy the cool green of the forest. There were squirrels, deer and birds. There were fish in the streams.

But now there is nothing... nothing but desolation.

How did this fire get started? It wasn't lightning or some other natural cause.

Someone was careless. Someone flipped a cigarette from a car window, left a campfire smoldering, or tossed away a match that "appeared" to be out.

It's the same story across the nation. Forest fires burned 21 million acres of America's wooded land last year. And 9 out of 10 of these fires were caused by

people... mostly good people like you. One moment of carelessness, in each case, did the job.

Be careful in the woods this year. Be sure every flame, every spark is dead out. Crush your smokes, drown your campfires. When you drive use the ash tray in your car. Be careful. Please.

Remember — only you can  
PREVENT FOREST FIRES!

Like other American business firms, we believe that business has a responsibility to contribute to the public welfare. This advertisement is therefore sponsored in cooperation with The Advertising Council and U. S. and State Forest Services by:

## HOME APPLIANCES

### BEAUTY IN FENCING

Some very pleasing new fence patterns have been developed. One of them makes the fence give the effect of a basket weave. Each board crosses over to the other side of the next post. The next board crosses to the opposite side of each post.

It gets your premises away from the commonplace look. We'll be glad to show you other patterns that do the same.

Redwood is the ideal wood for fences, because of its high resistance to decay, and its warm beauty if left unpainted. Drive in our yard and park. Let us serve you.

WE WILL BE CLOSED  
JULY 3rd, 4th and 5th

## This Year's Family Fiesta Biggest of All

### Proceeds to Defray Emergency Aid Costs

A crowd of approximately 20,000 persons, biggest in the 7-year history of the event, attended the Family Fiesta Sunday, June 27, on the grounds of the Passionist Fathers Retreat house on N. Lima St. in Sierra Madre.

The Fiesta is sponsored annually by the Mater Dolorosa Laymen's Retreat League. Proceeds will augment the retreat house building fund as well as help defray expenses incurred by the fathers during the forest fire and flood emergencies last winter.

Last December the Monrovia

### ROBERT H. FLETCHER, CHARLES H. McCREA PASS BAR EXAMS.

A former Sierra Madre resident and a newcomer here were among 189 Southern California candidates for the State Bar who were successful in the April examinations, the State Bar of California announced this week.

They are Robert Henry Fletcher, 377 N. Sierra Madre Blvd., Pasadena, and Charles Harold McCrea, 500 W. Fairview Ave.

Fletcher, son of Mr. and Mrs. Al Fletcher, 634 W. Sierra Madre, resided here until four years ago. Both he and his father are members of the Sierra Madre Masonic lodge.

Peak fire raged to within 1000 feet of the sacred buildings. More than 450 fire fighters and a number of evacuees were fed and sheltered by the Passionist Fathers who have been serving California for more than 100 years.

During the winter rains the Passionist again threw open their facilities to men fighting the flood waters and families forced to flee their homes.

The seventh annual Fiesta Sunday included games, a carnival midway, and a roast beef dinner. Father Isadore O'Reilly, C.P., retreat director, reports this year's Fiesta to have been the outstanding one of the year's series.

The former Sierra Madrean received both the B.A. and LL.B. degrees from the University of Southern California.

McCrea came to Arcadia from Cleveland with his family eight months ago and moved to a new home in Sierra Madre six weeks ago. He received his degrees from Western Reserve University Law School in Cleveland.

Admission ceremonies for the Southern Californians will be held July 27 in Los Angeles before the State Supreme Court.

A total of 2,140,000 injuries, the greatest number in recorded history, were suffered in traffic accidents in the United States during the year 1953.

### Opening Games on Little Coast League Schedule Set for 7th

First games of the season on the Little Coast League schedule here this summer will take place at 6 p.m., Wednesday, July 7, when "San Diego" meets "San Francisco" on the City school diamond and "Sacramento" faces "Los Angeles" at Sierra Mesa school site, Canon and Highland.

The league, new here this summer, embraces six overhand ball teams made up of players between the ages of 9 and 12 years. The teams have taken their names from Pacific Coast League teams. The schedule

calls for games through Aug. 27th.

Sponsors of the four opener teams are: San Diego—Sierra Madre Volunteer Fire Dept.; San Francisco—Exchange club; Sacramento—Civic club, and Los Angeles—Kiwanis club.

A warm-up period will start at 5:30 p.m. preceding scheduled games at 6 p.m.

**COUNCIL ADOPTS NEW EXCAVATION ORDINANCE**

At its June 22 meeting the City Council unanimously voted the adoption of Ordinance No. 540 regulating the making of excavations other than in public streets, providing for the issuance of covering permits and also providing a penalty for violation thereof.

### FIRE CAUSED BY STOVE DAMAGES SUNNYSIDE HOME

The Volunteer Fire Department responded to a call Friday, June 25, to the Louis J. Sauter residence, 174 S. Sunnyside, where fire caused by an overheated stove burned thru a wall. Firemen estimated the damage to be in the neighborhood of \$100.

Dr. F. T. Jung of Chicago urges women to serve their husbands dinner in an atmosphere of flowers, wine and candlelight. The note which greets the returning breadwinner will now read: "May be late playing canasta. Flowers and wine in icebox, can of beans on sink."—(Kansas City Star.)
